Horses at Gernor Matthews says he is determined that the Roby association shall be suppressed, so far as disobeying the laws of the state is concerned.

"Those fellows have determined and arrogantly bonated that they will continue racing in gin in defance of the law," said the governor. "I assure you that they will not do anything of the kind. The state will win. I cannot say now just what will win the fight."

It is understood that the battle will be fought in the courts. Attorney General Ketcham has been in consultation with the Chicago authorities as to their proceedings against Hawthorne, but what nature the fight will take is as yet a state secret. cus Daly's string of ten trotters and pacers

RAMAPO AND REY EL SANTA ANITA IN IT

Choice of the Knowing Ones Falls on Pair of Known Performers-Prospects for the Opening at Gravesend Are Very Bright.

NEW YORK, May 14.- Tomorrow Gravesend will witness a sport for kings. The Expectation stakes, with its promises, and the Brooklyn handicap, with its possibilities. will be run, and the card has on it many other good things. The Brooklyn handicap has not waned a particle. But while the interest has been as strong it has not been as loudly proclaimed as in previous years. With the first fall of the flag to morrow a new system of racing will be inaugurated. In it there is a promise of that honesty and fairness which alone will bring with a whipping finish a resignation to the fact that the best horse has won. Out of the original thirty candidates for the Brooklyn handicap but twelve remain and the chances are at least two of these will not go to the post. Only a few of the horses were declared out in February, among them being Old Banquet and Don Alonzo, well up in the weights, who were sent across the ocean. As the odds now stand, Dr. Rice and Ramapo are almost up in the estimation of those who are looking for odds. Today's storm has sent Rey el Santa Anita's stock booming, for the western crack is good in the mud. Sir Walter, whose gameness is unquestioned, has a host of supporters, while the others are more or less fancied by those who have "inside information." The entries for the Brooklyn handicap are as follows: Horse. Age. Weight, Jockey Doggett Taral Bergen Midgely Murphy Littlefiel J. Lamle azzarone assetlaw

asignes Tenor. Counter Tenor and Declare are considered as the two extreme doubtful chances always being strong against a 3-year-old, and Declare having showed but poor speed in the trials. The last handicap work was done yesterday. On Saturday Ramapo covered the full distance at Sheeps-head in 2:0914. This is looked upon as a Kansass City at Milwaukee; Grand Rapids at Tolede; Detroit at Indianapolis.

St. Louis laient Dumprd.

ST. LOUIS, May 14.—Indifferent fields and continued chilly winds cut down the atyet, though it is said he is in the best po sible condition. So far as the talent knows Dr. Rice's best effort at the handicap distance was made yesterday, when he was sent in 2:1112. Bassetlaw's form this year has not been such as would frighten off th rest. Sir Walter has covered a mile and a quarter at Jerome in 2:101%. Then come a bunch of light weights, who have simply showed that they have a right to contend in the handicap. Tonight the odds stood about as follows: Ramapo, 7 to 5; Dr. Rice, 8 to 5; Rey el Santa Anita, 3 to 1; Sir Walter, to 1: Rubicon, 6 to 1: Hornnine. and the others ranging from 10 to 20 to 1.
